

Advantages of Partnering with a Startup Backed by a Legacy Company

S.U.P.P.O.R.T.™
Super User-friendly Professional
People Offering Remote Troubleshooting

Since
May 2024

Since
1992

Our newer company Remote Support LLC incorporated in the United States has the advantage of using the expertise and resources of Applied Technology Research Center which is our company in Pakistan and has been providing ICT related solutions since 1992.

1. Experience with Innovation

Benefit from the best of both worlds—over three decades of industry expertise combined with the agility and innovation of a startup.

2. Proven Track Record

The backing company brings a legacy of successful projects, client trust, and domain knowledge, ensuring reliability in strategic ICT consulting and implementation.

3. Stability and Credibility

Unlike most startups, this partnership is rooted in the financial stability and reputation of an established player, reducing risks for clients.

4. Cutting-Edge Solutions

The startup infuses fresh ideas and modern technologies, enabling businesses to stay competitive in the fast-evolving tech landscape.

5. Comprehensive Services

Access to a broader suite of services, from strategic planning to implementation, leveraging decades of refined processes and expertise.

6. Strong Network and Partnerships

Leverage connections and vendor relationships developed over 30+ years to get access to premium tools and services.

7. Focused on Long-Term Success

A legacy company ensures the startup's solutions are sustainable, scalable, and designed with a long-term perspective in mind.
